

Lowshoe ZT 601 S1 CI HI SRC ESD

Sizes: 35-49 EN ISO 20345:2011

Description

Safety shoe sports design, very light approx. 460 gr (S.42) and flexible in non-woven textile, extra comfortable by incorporating a midsole in Phylon and an insole with memory & gel effect, the outsole in rubber-nitrile guarantee an excellent grip thanks also to its design with a drawing of microplates in addition to 2 lasts adapted to the male and female foot.

Features

✓ Seamless cut in highly breathable black non-woven textile

✓ Bi-density sole, between a high comfort sole in Phylon and a rubber-nitrile skid, sole manufactured by assembling and gluing with a ridged design that guarantees high adherence.

✓ 200 J non-metallic fiberglass impact/compression toe cap

✓ Padded tongue with anti-dirt gusset and padded collar

✓ High abrasion TPU toe cap.

✓ Very soft grey textile mesh lining with high breathability and abrasion resistance + anti-bacterial/fungal treatment and microfiber heel cup for better protection and durability of the lining.

✓ Closing by two-tone flat laces in high resistance polyamide

✓ Removable anatomical insole, anti-bacteria with memory foam effect, 9 mm thick heel and 5 mm thick in the metatarsal area and gel inserts in the heel and metatarsal area.

✓ Antistatic and ESD class 2 footwear available for a more customized fit in 2 sizes (women's and men's).
